

"Fantastic Feast" by Ritsuko Honda

Madawaska Valley Gardening Club

2022 Yearbook

Message from the President

Ontario's first case of Covid was confirmed in January of 2020. By early March, Ontario was beginning restrictions to gatherings like our meetings, the border to the US was closed and life had begun to change to something we were not familiar with. We suddenly found ourselves looking at one another wearing masks or on our computers with Zoom and FaceTime. Despite the impediments, we have managed to adapt to a new normal and carry on with much of the spirit we have always had. It showed in our handiwork and in our gardens!

And yet in the uncertainty and not being able to meet like we used to, bulbs and seeds were planted, flowers grew, and gardens blossomed as they always have. We missed meeting one another and when we did, it was usually one-on-one with masks (each getting more colourful and innovative as time went on!).

I would like to thank our incredible group of directors for their dedication during all of this. We have kept in touch through email and Zoom meetings so we could make some important decisions but, we had to be patient like everyone else. Several times we made plans but had to cancel because of provincial lock downs.

We managed a plant sale in September at Zurakowski Park. We had to wear masks and stay at a distance but, it was a beautiful afternoon, we had plenty of plants, and lots of laughter as we reunited with old friends. Thank you to everyone who donated plants. We made \$1,153.00!

And didn't the Adopt-a-Beds look beautiful this summer? Thank you to all who brought so much colour and cheer during these trying times. And my deepest thanks to each and every member that paid your membership this year.

It shows us you care.

We will meet again soon. We will get through this and come out stronger in the end.
