- If States, A Design, any style of design maybe used.

Horticultural Division

- Accessories not permitted in horticulture classes; Entry must be grown by entrant, minimum 3 months.
- 2 Entries per class as long as not same variety/colour.

Cut Flowering Specimen Definition

Annual- (OJES 2019, p. 130) A plant that completes its life cycle from seed to seed within one growing year. The seed germinates to produce a plant with flowering shoots, which dies completely after seed production. E.g. Tagetes (Marigold), Cosmos, Petunia

Perennial- A plant that lives for more than two years.

* For flower show purposes, the term perennial does not refer to tender perennials which are treated as annuals in our climate or to trees, shrubs, conifers and hardy vines. E.g. Dahlia is an annual here.

* Branches of trees or shrubs do not fall within the of usual understanding of what is meant by 'perennial' on a show schedule

January 22nd, 2026
