Please send any pdf documents to market your topics/workshops including the audio/visual requirements form so our societies know what equipment/services are required.

Currently I am doing all my presentations on line using Zoom. To use this format I like to meet ahead of time with the meeting host to work out any difficulties that may occur.

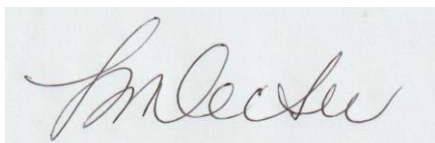

When we can do face-to-face Talks and demos I use a USB stick, and a lap top. I do have my own projector but often use the equipment of the organization I am speaking to.
