Topic	Title	Description
Gardening	"Weird and Wonderful Plants"	<i>The plants in this presentation are not all native or edible. The inspiration and driving force behind this list I've put together is to excite the eyes, provide some unique specimens you may not have seen before, start conversations in gardens and HOPEFULLY – you'll learn or see something new.</i>
Gardening	"A Day in the Life of a Landscape Designer"	<i>Created as a way to educate the public and students on what it is exactly we do, why it is important, and an excellent rewarding career!</i>
Gardening	"Garden Design Crash Course" *this is a 2-hour, interactive workshop (not a 1 hour presentation)	This 2-hour intensive talk walks the audience through the entire process of creating a garden design from measuring, site inventory & analysis, plant selection, existing conditions/restrictions, drainage, design elements and much more.
Gardening	"Plant Design Crash Course"	<i>A less-intensive version of the Garden Design Crash Course which focuses on plant selection, design and arrangement.</i>
Gardening	"Low-Maintenance Landscapes" (most requested)	<i>If your garden fills you with more dread than joy - it's time for a change! In this talk, I share some design tips, tricks and techniques for designing and caring for a garden - the EASY ways.</i>
	Various...	- Rain Gardens, Storm-Water Management and

Gardening	I am also creating talks on the following subjects:	FLP (Fusion Landscape Professional designation) - "The Inward Garden" : a deep dive into this fantastic book by Julie Moir Messervy - Gardens of Italy and Spain : a review of our 6-week class trip in 2015 to study Garden Design (Fanshawe College) - Gardens Inspired : Inspiring Gardens in Italy, Spain, Egypt, India, Cayman Islands, Ontario, British Columbia & Haiti - my personal experience
