

Huntsville Horticultural Society

Join us at our next

General Meeting

Tuesday June 13, 2023

At 7:00 P.M.

The Huntsville Public Library

7 Minerva Street East

**Speaker: Sean James - *Master Gardener,
Eco-landscape Designer and Consultant***

**Topic: *What to do With a Downpour:
Ornamental Ways to Handle Rainwater.***

Sean will join us virtually to speak about Rain Gardens. During his presentation techniques will be discussed to aid in infiltrating rainwater into the soil while beautifying your landscapes and allowing a more unusual palette of plants to be used. Rain gardens can be a beautiful addition to any yard and can allow the planting of some truly interesting plants. They also help the environment by infiltrating water to clean it and restore the water table and base-flow (the water that seeps through the ground to our creeks). We'll cover how to design and build a rain garden, including placement, construction, and plant choices.

Refreshments and the business section will follow the presentation.

Door Prizes, Green Elephant Table
