Bracebridge Horticultural Society Growing Since 1932

2024 Yearbook

President's Message

Welcome to the Bracebridge Horticultural Society ('BHS' for short).

It is my pleasure to accept the position of Society President for 2024. I hope that I can fulfill the position as effectively as my predecessors. The Society has a dedicated and hard working executive and with their ongoing efforts we will be successful in bringing a full schedule of speakers, workshops, tours, plant sale and flower show. BHS is also the host for the District Fall Workshop and as such we have an opportunity to showcase our decorating and hosting skills. This Yearbook will provide you with an outline of the upcoming activities and contact information for the year ahead.

BHS, through its volunteers, contributes to the education and beauty of Bracebridge. We have skilled and highly devoted volunteers that keep the Millennium Garden, Rotary Garden, Library Garden and the Centre for Active Living Gardens in tiptop shape. Coming out as a volunteer on a regular basis or on an 'as you can' basis will provide you with an opportunity to network and expand your gardening knowledge.

We are always looking for new ideas and gardening information, so please feel free to participate at our meetings and offer your suggestions. We can all learn from each other.

As you sit at home in the middle of winter, I hope you can enjoy the anticipation of the next gardening season by thinking of the colours and smells that will once again surround us.

Yours in gardening

Sharon Hill

In 2023 Bracebridge Horticultural Society Members generously donated **1397 Volunteer Hours** to maintain public gardens, engage with our community and ensure a vibrant organization. Volunteers always welcome!

Share The Wealth & Door Prizes: Sharon Slater

Workshops: Kathy Dyer & Karen Boyer

Yearbook 2024: Karen Boyer Youth: Volunteer(s) Needed

Ladybugs

An important partner in pest control. They eat aphids, mites, scales, whitefly, mealybugs; also, cabbage moths, bollworms, tomato hornworms and broccoli worms. When the temperature drops, ladybugs find shelter in a damp woodpile, sheds and garages and even come inside homes. Let stems, twigs and leaves remain in place. Ladybugs gather in groups to stay warm and emit a pheromone to attract more.

Family Scavenger Hunt

Discover nature, have fun with your family, explore the outdoors and bring attention to the details in your surrounding environment. Here are some ideas of items to gather, but you can create your own list.

- *A leaf that has a scent when you rub it
- *Leaves with two different shapes or colours
- *A twig shaped like a letter
- *Something smooth
- *A cone from an evergreen tree
- *Something beautiful
- *A pebble from the base of a tree

Why You Need to Weed

- *Weeds rob the soil of moisture and nutrients that would benefit our desirable plants and take up space that plants need to mature.
- *Weeds grow tall and shade flowers and vegetables, stunting their growth
- *Weeds are a hiding place and breeding ground for pests and diseases.

Helping Bees In Your Garden

- *Bees are the world's most important pollinating insect
- *Plan for continuous bloom, thus providing a steady supply of food for bees
- *Mass plants: Place 3 -5 plants of the same species in a group, making it easier for bees to find them and bees use less energy to collect pollen and nectar
- *Avoid pesticides as bees are highly sensitive to them
- *Plant flowers with single blooms as they are easier for bees to access the pollen and nectar than double bloom flowers
- *Bees rely on the colours and scents from flowers to find food. Purple, yellow, white and blue flowers are the easiest for them to see. Bees find fragrant flowers irresistible
- *Removing spent flowers helps promote longer blooming and thus more food for bees.
- Pruning to promote bloom ensures plant health and bee food supplies
- *Bee attracting plants for spring: Foxglove, heather, primrose, crocus, heliotrope Mid season bee loving plants: chives, dahlia, lavender, sunflower, yarrow Late season plants: coneflower, pumpkin, perennial asters, sedum, squash.

<u>Dates of Executive Meetings, General Meetings, Workshops, Special</u> **Events:**

February 13 - Executive Meeting

February 27 – General Meeting: The Power of Local Food. Kelli Ebbs-Muskoka

North Good Food Coop

March 10 - Daylight Saving Time Begins

March 12 – Executive Meeting

March 19 - Spring Equinox - Equal amount of daylight and darkness

March 23 - Earth Hour 8:30 p.m. - 9:30 p.m.

March 26 – General Meeting: Native Plants. Linda Pots, Brackenrig Garden Centre &

Maintenance

April 08 – Total Solar Eclipse

April 09 - Executive Meeting

April 13 - Workshop: Tool Sharpening.

April 20 – Garden Clean Up

April 22 - Earth Day

November 03 – Daylight Saving Time Ends

November 12 – Executive Meeting

November 26 – Annual General Meeting + Pot Luck Dinner & Entertainment

December 21 – Winter Solstice: The longest night and shortest day.

Location of Bird Feeders

Position bird feeders and birdbaths half a meter/1.5 feet or less from your windows or more than 10 metres/33 feet from a window. Within a 1/2 metre, birds cannot build up enough momentum to injure themselves too seriously if they hit the window. More than 10 metres away provides birds with an opportunity to veer away from the window when they realize it is not a thoroughfare to another part of your garden.

Iced Sun Catchers

Collect leaves, berries, grasses, pine needles, twigs and seeds. Arrange them in the bottom of a repurposed plastic container, pie plate or cake pan. Add a piece of string to be used for hanging the sun catcher. Pour water over the arrangement. Leave outside to freeze or place in freezer. Set container briefly in warm water to dislodge the iced contents. Hang outdoors in a location where it catches the sun.

Summer Flower Show & Silent Auction

Saturday August 10, 2023 - 12:00 – 2:00 pm Centre for Active Living, 54 Dominion Street

Rules & Regulations:

- **1.** All exhibitors must be members of the Bracebridge Horticultural Society. Memberships available at the door \$20.00.

^{**}Any questions may be directed to the Flower Show Committee members: Sharon Davis, Sharon Hill, Ruth Scholey or Sharon Slater.

- 4. **Society Award:** Awarded to a new exhibitor with the highest number of points. Must have at least 3 entries.
- 5. Best Rose: South Branch Farm
- 6. **Best Bloom in Show:** (Excluding roses) South Branch Farm
- 7. **Best Design:** Seasons in the Country
- 8. Best Houseplant: CR Flowers

Cutting Classes: To be shown with own foliage

- 1. CALENDULA 5 blooms
- 2. COSMOS 3 stems
- DAHLIA 3 blooms under 4"
- 4. DAHLIA 1 bloom over 4 "
- 5. ECHINACEA 3 stems
- 6. HYDRANGEA 1 bloom
- 7. RUDBECKIA 3 stems
- 8. LILY 1 stem, no daylilies
- 9. MARIGOLD 1 bloom over 3"
- 10. MARIGOLD 3 blooms, 1 3 "
- 11. NASTURTIUM 5 blooms, mixed colours
- 12. PETUNIA 3 stems, single
- 13. PETUNIA 3 stems, double
- 14. PHLOX 1 stem, perennial, any colour
- 15. ROSE 1 spray, any variety
- 16. ROSE 1 stem, any variety
- 17. ROSE 1 bloom, any variety, floating in a bowl, no foliage
- 18. SWEET PEA 5 stems
- 19. TUBEROUS BEGONIA 1 bloom, floating in water with own foliage
- 20. ZINNIA 1 bloom
- 21. COLLECTION OF CUT FLOWERS IN A VASE minimum of 5 varieties, up to a maximum of 15 stems
- 22. COLLECTION OF FOLIAGE IN A VASE 3 types
- 23. COLLECTION OF GRASSES IN A VASE 3 types
- 24. COLLECTION OF HOSTAS IN A VASE 3 leaves
- 25. SEASONAL FLOWER, NOT LISTED 1 bloom, stem, spike or spray, named

Vegetable Classes:

- 26. TOMATO small fruit 1 stem
- 27. SUMMER BOUNTY IN A BASKET a collection of vegetables
- 28. HERBS 3 cut specimens in a container

Design Classes: Theme: "Challenging Your Imagination"

The following designs are left to your interpretation. Accessories permitted. Materials may be from any source. Please have fun and use your imagination.

- 1. A SCULPTURE a design using a sculpture (maximum sculpture size 14")
- 2. WOOD a design featuring wood
- 3. ANTIQUE
- 4. WATER a design including water
- 5. MINIATURE a design with maximum dimensions no more than 5" in any direction including the container, base and/or accessories
- 6. KITCHEN UTENSIL
- 7. GREENS use your imagination

Houseplant Classes: Pots must not exceed 10 inches unless otherwise specified.

- 1. AFRICAN VIOLET standard, in bloom, one crown, any colour
- 2. BEGONIA large or fancy leaf
- 3. COLEUS 1 plant
- 4. CACTI OR SUCCULENT 1 plant
- 5. COLLECTION OF 3 INDIVIDUAL CACTI &/OR SUCCULENTS displayed individually in/on a container of your choice
- 6. FERN 1 pot
- 7. STREPTOCARPUS
- 8. IVY
- 9. ORCHID 1 plant, in bloom
- DISH GARDEN a miniature landscape in an open shallow container. Plants should have similar cultivar requirements. May include accessories to scale. Container not to exceed 15" in diameter.
- 11. ANY OTHER HOUSEPLANT NOT LISTED blooming, named
- 12. ANY OTHER HOUSEPLANT NOT LISTED foliage type, named

<u>Post Secondary Education Bursary:</u> \$1000 is offered annually to encourage study in horticulture, forestry, environmental studies, or related disciplines.

School Grants: \$100 is offered annually to local area schools to encourage students to engage in hands on gardening activities.
