

Catherine McGill

Bio

Aging, round, humour in a nutshell

I was a Chef for over 20 years, Blacksmith, Horse trainer, Riding instructor but the ones you want to know is my own Garden maintenance business for way too long, 40+ years and my clients are in majority, seniors, I am also a Horticultural and Design judge, so yes I know a little about a whole bunch of plants, was also OHA Director of District 6 which is a big area with 21 horticultural societies and the largest membership in Ontario, in 2023 retired from the board of OHA as the Southwest rep where I helped the other Directors answer questions they had on issues arising from their Districts.

Officially retired, but you know once a volunteer always a volunteer. Still the admin on a few Facebook pages, Gardenontario, D6 & Haldimand.

I sit on the GCO & OHA Judges groups where we review and answer judges' questions and have been clarifying the changes that happened within the "new" Ontario judging and exhibiting standards book which all floral judging is ruled by, and we host judges updates which keep the active judges current with changes and the rules fresh.

My motto I strive to maintain is; if you can't see the humour in what you are doing,
Why are you doing it?
