

# **JUDGING UPDATE**

## **“Into the Future”**

### **Practice Judging - Virtual Show- Houseplants**

March 1, 2022

Presentation by the OHA Judging Committee

# VIRTUAL JUDGING GUIDANCE

- ❑ If you have a colleague participating in a class and you can recognise his/her design, please rely on objectivity as a Judge to make good and fair choices.
- ❑ Please bear in mind the overall theme of the Show and Class titles. Competitors should have picked up on these details. However, remember this only counts for 10 points
- ❑ Judges should be invited to participate and receive the Show Schedule **well in advance**.
- ❑ An honorarium should be agreed upon by the Show Committee and the Judge at the time of invitation.
- ❑ The Schedule is written to help exhibitors submit good photographs. However, this is not always the case, so please **do the best you can not to judge the photograph, just the design**. Unfortunately, a bad photograph can ruin a good design.
- ❑ **Be a little lenient on backgrounds** – many people have had to make do with what they have available to them and finding a totally empty wall or hanging up a perfect backdrop can be difficult.

- ❑ **The most important thing is to write good comments on entries from which the exhibitor can learn.** If published on social media, those looking at the entries can also gain some knowledge from reading them.
- ❑ Turnaround time for judging should be **7 to 10 days depending on the size of the Show** including number of classes and number of entries.
- ❑ Decisions of the Judge(s) are final.

Check out the full version of the web of **OHA VIRTUAL SHOW GUIDELINES**

**Take a look at each Class and see how you would rank the designs then compare them to the judge's findings. Keep in mind the photos in this slide show are not of as high a resolution as the ones the Judge received. The Judge was an OHA Judge and these were from an actual Virtual Show. The idea is to try Judging a Virtual Show and see what the pros and cons are of the Virtual show.**
